Trailer Catalogue

Galvanised 3200kg Flat Trailer 4.2m x 2.1m

Chassis & draw bar built from pressed out chassis rails. Pressed steel chassis are stronger than standard RHS. These chassis are 200mm deep. Galvanised so these trailers should last years.

Aluminium drop sides with anti-rattle latches.

Suspension 3200kg capacity with AL-KO rocker roller springs.

10" electric brakes, brake away system fitted.

5 x 185 R14 Sunraysia wheels with Landcruiser stud pattern, with new 8ply tyres.

All lights LED including side markers.

10" swing away jockey wheel.

These trailers are incredibly strong and can quickly have the sides removed and attachments fitted to customers individual requirements.

Registration/on road costs additional.

Hot Dipped Galvanised 3500kg Cattle/Horse Trailer 3.6m x 1.9m
